

Lesson Learned

1. Did the project meet scope time and cost goals?

We did our individual task and finish it on time and also work on our budget in order to meet our cost goals. As a result, we did meet our project scope time but we miscalculated on our budget because of the price changes of the materials that we used.

2. What were the success criteria listed in the project scope statement?

After a year of completion, we should regain our cost and expenses regarding this project.

3. Reflect on whether you meet the project success criteria?

We are working hard to meet the project success criteria and we are confident that after a year of completion. We will regain the cost and expenses that we spent regarding this project.

4. In terms of managing the project, what were the main lessons your team learned from this project?

The main lessons that we've learned from this project is to work together and to listen to each other's ideas so that we can innovate from the idea we gathered from the team and make our project better.

5. Describe one example of what went right on this project?

Many unexpected things happened during the making of this project. One thing that went right on this project is that we analyzed and did the exact flow of our project. As a result, our context diagram and data flow diagram were really the exact flow of our project.

6. Describe one example of what went wrong on this project?

What went wrongs the gantt chart because we didn't know when we have started and we have a hard time remembering the details so we didn't start doing the gantt chart

7. What will you do differently on the next project based on your experience working on this project?

Next time when we have a project, we will do our best to work together and write every detail of what we've done to keep track our activity and work together for our project to be made successfully.
