

Monthly Progress Report

Project Name: **Android Based Grocery Shopping Application**

Team Member Name: Cherobel Sabanto, Edna Villanueva

Date: January 7-8 2020

Work Completed this week:

- Meet with the team.
- Start organizing the files.

Work to complete next week:

- Continue to work with unfinished files.
- Prepare website
- Organized files.

What going well and why:

- The project is now in 5% condition
- We are done with our context diagram and data flow diagram because we communicate properly.
- The teams are struggling, but we have positive thoughts that we can make it on time.

What not going well and why:

- We are having a hard time making wireframes because none of us is good at designing and drawing.

Suggestion/Issues:

- Research more on the internet to look for more functions on Android Based Grocery Shopping Application.

Project Change:

- The team can finish this project in time if we give more time and focus on developing the project.

Project Name: **Android Based Grocery Shopping Application**

Team Member Name: Cherobel Sabanto, Edna Villanueva

Date: January 14-15 2020

Work Completed this week:

- 20% of the website completed.
- Still working on unfinished files.

Work to complete next week:

- Prepare team contracts.
- Prepare project charter.
- Prepare gantt charts.

What going well and why:

- The project is still the same as last week's progress.

What not going well and why:

- ?

Suggestion/Issues:

- Research Again.

Project Change:

- As of now, the project is okay.

Project Name: **Android Based Grocery Shopping Application**

Team Member Name: Cherobel Sabanto, Edna Villanueva

Date: January 28-29 2020
